

2172013 TECHNICAL MACHINE SHEET

Product: Cooling Compressor Sabroe SAB L233 – two units
Product number: 2172013
Manufacturer: Sabroe
Manufacturer's type: SAB L233
Manufacturing year: 2008
Cooling capacity: 2282 kW
Condition: Very good, never installed

Pictures:

JADE Machine Description:

Two large single-stage cooling compressors with capacity of 2282 kW/unit, manufactured by Sabroe Denmark in year 2008 but NEVER INSTALLED. Refrigerant is R717 – NH₃ – and it has on built separator and heat exchanger. The compressors has advanced Unisab III control system.

Technical data (two identical units):

Manufacturer: Sabroe Denmark
Manufacturing year: 2008
Type: SAB L233 – two units
Refrigerant: R717
Cooling capacity: 2282 kW
Swept volume: 2818 m³/h
Oil cooling capacity requirement: 90 kW
Capacity control: 10 – 100 % (inverter)
Electric Drive: 355 kW / 2950 rpm / 380 V / 50 Hz
Evaporation temperature: - 8 C
Condensing temperature: +30 C
Separator type: OHU 7629
Heat Exchanger type: PSHE 3HH-66/2/1
Weight of one unit: 5400 kg
